

# Mawgan Recreation Hall Survey Report

## July 2024

### Summary of findings

Out of the 234 residents surveyed, the majority perceived Mawgan Recreation Hall's infrastructure, accessibility, events, and safety as very poor, poor, or adequate.

### Introduction

Between 14 June and 3 July 2024, 234 residents of Mawgan and the wider Lizard peninsula from across a range of locations and age groups were surveyed to gauge their perceptions and experiences with regards to the hall's infrastructure, accessibility, events, and safety. This report summarises those findings.

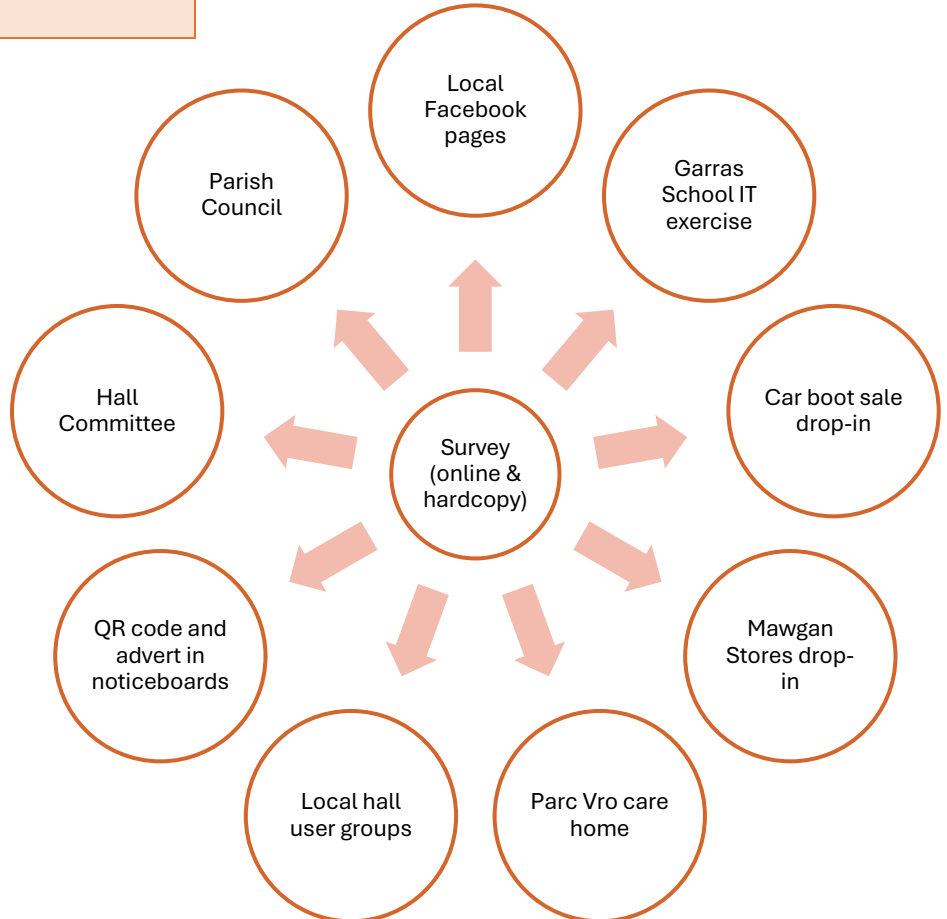

### Methods and demographics

Age group	Number of responses
12 and under	25
13-18	3
19-29	10
30-45	53
46-64	76
65+	67

The oldest respondent was 93, the youngest 6

The median age of respondents was 53

#### Dissemination methods

## Secondary Outcome: measure perception/experiences of **accessibility**

*To understand people's perceptions/experiences of the hall's accessibility, we asked them about ease of access and accessibility issues in general.*

# 52

Respondents with a very poor/poor perception of the hall's accessibility.

“ [For hearing impaired] need...acoustic 'deadening' to walls and ceiling ”

“ [Improve] disabled toilets ”

“ Needs ramp for disabled ”

## Secondary outcome: measure perception/experiences of **events**

*To understand how people perceive/experience events at the hall we asked when they last used the hall, why they used it, and whether people have booked the hall for private events.*

# 157

Respondents who had never booked the hall for private events and who also ranked the hall between 1 and 3 for their perception of its infrastructure.

# 28

Respondents who had attended one of the regular events or classes held at the hall.

“ [The] smell of mould from the chair cupboard which [sic] caused one [participant] to leave the event ”

“ Cold in winter ”

“ Dirty floor [for dancing] ”

## Secondary outcome: measure perception/experiences of **safety**

*To understand how respondents perceive/experience the safety of the hall we quantified the written responses that commented on safety.*

# 50

Respondents who made explicit references to hazards or very poor/poor safety provisions in the hall and car park.

“ The storeroom has black mould ”

“ Terrible lighting ”

“ Dangerous accessing the field from the car park, especially for children ”

“ Muddy in winter when parking by field ”

## Conclusion

According to respondents, Mawgan Recreation Hall is rated very poor to adequate in the areas of infrastructure, accessibility, events and safety. We are grateful to everyone who participated in the survey and who helped us to reach as many residents as possible.
